

Wendy Ellyatt

CATALYST AND CHANGEMAKER

About Wendy

Wendy is passionate about unlocking the potential in people.

What does fulfil us and produce sustainable states of wellbeing? How do we protect both children and adults from systems that undermine our inherent creativity and potential? How do we ensure that we can all feel valued and connected? Wendy's diverse projects explore the vital importance of early childhood, the shaping of values and mindsets, the purpose of education systems, the foundations of compassionate communities and our shared need for relationship, meaning and contribution.

For the last thirty years Wendy has been exploring the unique qualities of human learning and development, with a particular emphasis on what gives us meaning and purpose. Her studies have taken her from being a specialist in the foundational importance of early learning, to examining educational policymaking, international perspectives, natural systems dynamics and the importance of family and community life for the creation of sustainable societies and cultures of lifelong learning.

She is the founder and Chief Executive of the **Save Childhood Movement** www.savechildhood.net which established both **National Children's Day UK** www.nationalchildrensdayuk.com and **The Children's Voice** www.thechildrensvoice.net. She is currently in the process of developing the **Flourish Project** www.flourishproject.net which introduces a new and powerful framework for understanding and mapping human wellbeing that promotes community engagement and whole-systems thinking. She is also developing www.futuregens.net.

In 2016 she became one of the '100 Hundred Women of Spirit' recognised by the Brahma Kumaris. In 2018 she led the development of the **UK Spirituality in Education Alliance** www.siallianceuk.org and in 2019 she became **Co-Chair of the Global Council for the Wellbeing Economy Alliance** <https://wellbeingeconomy.org>.

In 2021 she became a member of the **SDG Thought Leaders Circle** and was invited to become **UK Country Lead on Collective Stewardship for the G100**.
